Today

- Please text me your intro and questions for my feedback
- Facilitation evaluation/requirements
- Order of who goes when (free when not your turn)
- Intro
- Heads up for the next while
- Drill (demo of what you will need to do)
- Check your emails daily for the next 2 weeks
- Today's PPT is posted in Teams/Shared/ClassMaterial folder

Facilitation Session Grading (B.S.)

Intro helpful, clear and suitable for audience	**10**
Maintained a welcoming body language throughout (tone of voice, enthusiasm for the subject, facial expressions)	20
Aware of who contributed how much (redirected over-contributors, and engaged the silent ones)	20
Connected remarks when warranted	10
Avoided personal bias	10
Handled derailing comments (if any)	10
Questions clear (did not require rephrasing/explanation)	10
Summary of what was stated	10
Total	100

Facilitation Order

Free if not your turn. Please do not log in to class!

		Sept
Xiong	Yining	18
Eastwood	Trevor	18
Ayyaz	Arsalan	18
Dougsie	Mahdi	18
Sousa	Darian	18
Palmer	Chris	18

Amenyaglo	Jean	25
Van	Nikita	25
Owolabi	Oluwaseyi	25
Kaur	Jashanpreet	25
Elliott	Robert	25
Kuruppu	Shaun	25

Facilitation Plan (revised)

- Total of 8 minutes each (not 10)
- Minute 1: intro
- Minute 2-7: Facilitation
- Minute 8: Summary

Facilitation Intro/Questions

- Do NOT read. It will sound mechanical. Affects input
- Use your phone as a timer
- Memorize the main points and look at the webcam and then share “why this facilitation topic” – 60 seconds (+-5)
- Questions: Do not read. Familiarize, look at your questions, then eye contact with the webcam and state what you want to discuss next
- Eye contact with your peers encourages participation

Up Next (Approval Required)

- During your free class times: Prep for technical documentation
  - Read Lesson 10, 11 and 12 in detail
  - Read Technical Document and Presentation Topic Proposal assignment
  - Text me any questions about the requirements
  - Conduct research on possible ideas for your technical documentation
  - Text me a draft of your topic by Oct 4 for feedback (one topic in 2-4 sentences and 5 headings, 3 credible sources)
- Please note: AI use is NOT allowed – from ideation to writing. I will use several tools to check: Writing style, humanizing the writing, ideation, overall style
- The technical documentation must be written entirely in your own words

Facilitation Drill

- I will shortly ask you to turn on your webcam, and raise your hand
- I will first act as a facilitator, then you will
- I will use my phone as a timer to know when to stop
- I will introduce a topic in 60 seconds (looking straight into webcam)
- I will ask you to text me the best opening Q you can think of
- Then I will choose one from your answers and ask everyone
- Look into the webcam, sharing your thoughts (about 15 seconds).
- I will bridge when needed
- I will ask one of you to make an irrelevant comment, which I will address
- I will summarize (briefly not 60 sec)
- Then you will facilitate (I will randomly choose)
- I will offer comments as you facilitate
- Please turn on your webcam and raise your hands in Teams
